	Page No.
Summary.....	4
Milk marketing area map.....	8
Table 1: Federal order fluid (Class I) differentials, January 1996 and minimum Federal order Class I prices, January and February, 1996 and 1995.....	9
Table 2: Federal milk order class and blend prices and butterfat differentials, November, with comparisons.....	10
Table 3: Federal milk order class and blend prices and butterfat differentials, December, with comparisons.....	12
Table 4: Average Federal milk order Class I and blend prices, by marketing area, January-December, with comparisons.....	14
Table 5: Number of producers delivering milk to handlers regulated under Federal orders, total producer deliveries, butterfat content of producer deliveries, and average daily delivery per producer, by marketing area, November.....	16
Table 6: Number of producers delivering milk to handlers regulated under Federal orders, total producer deliveries, butterfat content of producer deliveries, and average daily delivery per producer, by marketing area, December.....	18
Table 7: Producer deliveries of milk used in Class I and gross Class I use by handlers regulated under Federal orders, by marketing area, November, with comparisons.....	20
Table 8: Producer deliveries of milk used in Class I and gross Class I use by handlers regulated under Federal orders, by marketing area, December, with comparisons.....	22
Table 9: Producer deliveries of milk used in Class II by handlers regulated under Federal orders, by marketing area, November and year to date.....	24
Table 10: Producer deliveries of milk used in Class II by handlers regulated under Federal orders, by marketing area, December and year to date.....	26
Table 11: Total producer deliveries of milk and producer deliveries used in Class I by handlers regulated under Federal orders, by marketing area, January-December, with comparisons.....	28

Table 12: Whole milk and lowfat and skim milk items sold in marketing areas defined by Federal milk orders, for markets where such information is available, October 1995, with comparisons.....	30
Table 13: Whole milk and lowfat and skim milk items sold in marketing areas defined by Federal milk orders, for markets where such information is available, November 1995, with comparisons.....	32
Table 14: Packaged sales of individual whole milk products, and lowfat and skim milk products in selected marketing areas defined by Federal milk orders, January 1995 to date, with comparisons.....	34
Table 15: Packaged sales of whole milk items, lowfat and skim milk items, milk and cream mixtures, cream items, and total fluid items by handlers regulated under Federal milk orders, grouped by region, October 1995, with comparisons.....	36
Table 16: Packaged sales of whole milk items, lowfat and skim milk items, milk and cream mixtures, cream items, and total fluid items by handlers regulated under Federal milk orders, grouped by region, November 1995, with comparisons.....	37
Table 17: Packaged sales of milk and cream mixtures, cream products, yogurt, and eggnog by handlers regulated under Federal milk orders, January 1995 to date, with comparisons.....	38
Table 18: Milk, skim milk, and cream utilized in the manufacture of dairy products by handlers regulated under Federal milk orders, grouped by region, October 1995, with comparisons.....	40
Table 19: Milk, skim milk, and cream utilized in the manufacture of dairy products by handlers regulated under Federal milk orders, grouped by region, November 1995, with comparisons....	41
Table 20: Percentage of whole milk equivalent (milkfat basis) used in the production of manufactured dairy products, in Federal order markets, January 1995 to date, with comparisons.....	46
Table 21: Federal milk order base and excess prices in various marketing areas, November and December, with comparisons....	47
Table 22: Federal milk order component prices and tests in various marketing areas, November and December.....	47
Table 23: Factors used in the computation of Class II prices in Federal milk order markets, January-June 1995.....	48

Table 24: Factors used in the computation of Class III-A prices in Federal milk order markets, January 1995 to date.....	49
Table 25: Producer deliveries used in Class III-A by handlers regulated under Federal orders, by region, January 1995 to date.....	50
Table 26: Dairy product wholesale prices, January 1995 to date.....	51
Table 27: United States milk prices, Minnesota-Wisconsin price series, Butter-powder "snubber" prices, Basic Formula Price, and selected dairy Farmer price measures, January 1995 to date, with comparisons.....	52
Table 28: United States general price measures, January 1995 to date, with comparisons.....	53
Table 29: Consumer price index for all urban consumers: Selected products, United States city average, January 1995 to date, with comparisons.....	54
Table 30: USDA purchases (delivery basis), January 1995 to date, with comparisons.....	54
Table 31: U.S. production, milk and selected manufactured dairy products, January 1995 to date, with comparisons.....	55
Table 32: Commercial and government storage holdings, January 1995 to date.....	55

\* Because the blend price adjusted for location was at or below the Class III price in certain zones in some markets in the East North Central, West North Central, and Pacific regions, handlers elected not to pool an estimated 390 million pounds in December 1995, that normally would have been pooled under these orders. The total estimated amounts of milk not pooled for this reason through the month of December are: for 1995, 5.3 billion pounds; and for 1994, 4.0 billion pounds. <sup>1/</sup> End-of-year figure. Remaining annual statistics are for all markets in effect during any part of the year, except for the Michigan Upper Peninsula market, for which all the data were restricted and thus excluded through 1992. <sup>2/</sup> Represents changes over the previous year. Percentages computed from unrounded numbers. Data for 1992 have been adjusted to a 365-day basis before computing percent changes. <sup>3/</sup> Figures are based on the same group of comparable markets--markets where the orders were in effect the entire period 1994-95, and for which the data were not affected significantly by marketing area changes; all markets are comparable. <sup>4/</sup> The decrease in markets results from the merger of the Georgia, Alabama-West Florida, New Orleans-Mississippi, Central Arkansas, and Greater Louisiana marketing areas. See "Summary of Federal Milk Order Actions, July 1995" in FMOS-409. <sup>5/</sup> The decrease in markets results from the termination of the Paducah market order. See "Summary of Federal Milk Order Actions, November 1995" on page 57. <sup>6/</sup> Average or total.

1/ Total packaged disposition, in and out of the marketing area, by regulated handlers. Besides receipts from producers, these dispositions also may include receipts from other Federal order plants and/or receipts from other sources. Due to a change in classification procedures that was effective July 1, 1993, sour cream, yogurt, and eggnog are now reported on a used-to-produce basis. Previously, most orders reported data for these products on a disposition basis.

2/ Plain, flavored, and miscellaneous whole milk products.

3/ Plain, solids added, flavored, and miscellaneous lowfat and skim milk products, and buttermilk.

4/ Light, heavy, and sour cream and cream dips.

5/ In addition to listed fluid milk and cream products, includes eggnog and yogurt.

6/ Represents changes over the previous year. Percentages are based on the data for all markets combined. Data for 1992 are adjusted to a 365-day basis before computing percent changes.

7/ Represents the data for all Federal milk order markets, except for New York-New Jersey. For percent changes based on comparable markets, see tables 15 and 16. The decrease in markets in July results from the merger of the Georgia, Alabama-West Florida, New Orleans-Mississippi, Central Arkansas, and Greater Louisiana marketing areas. See "Summary of Federal Milk Order Actions, July 1995" in FMOS-409. The decrease in markets in November results from the termination of the Paducah marketing area. See "Summary of Federal Milk Order Actions, November 1995" on page 57.

\*Due to the unusual price relationships and/or qualification circumstances in some markets in 1990-1994 and 1995, handlers elected not to pool significant volumes of milk that normally would have been pooled under Federal milk orders. Because this milk would have been classified as Class III under the orders, the utilization in butter, cheese, and nonfat dry milk production for these years was affected.

1/ Includes producer milk and other source milk used to produce manufactured dairy products in regulated pool plants as well as milk diverted and shipped to non-order plants for processing. Other source milk at regulated plants includes bulk transfers and diversions from other Federal orders, and receipts from unregulated sources. Some of the data are preliminary and partially estimated.

2/ In addition to listed manufactured products, includes milk, skim milk, and cream used in other manufactured dairy products: e.g. cottage cheese, evaporated milk, condensed milk, dried products, and aerated cream; and milk, skim milk, and cream used in other food and non-food products. The total also includes dumped or spilled milk and plant loss.

3/ Represents changes over the previous year. Percentages are based on the data for all markets combined. These changes are based on pounds of butterfat, except for nonfat dry milk, which are based on pounds of skim milk. Data for 1992 are adjusted to a 365-day basis before computing percent changes.

4/ Represents the data for all Federal milk order markets, except for New York-New Jersey. For percentage changes based on comparable markets, see tables 18 and 19. The decrease in markets in July results from the merger of the Georgia, Alabama-West Florida, New Orleans-Mississippi, Central Arkansas, and Greater Louisiana marketing areas. See "Summary of Federal Milk Order Actions, July 1995" in FMOS-409. The decrease in markets in November results from the termination of the Paducah marketing area. See "Summary of Federal Milk Order Actions, November 1995" on page 57.

1/ In-area sales include total sales in each of the areas by handlers regulated under the respective orders, by handlers regulated under other orders, by partially regulated handlers, and by producer-handlers. Sales routes of handlers may extend outside defined marketing areas; therefore, some handlers' in-area sales are partially estimated.

2/ Plain, flavored, and miscellaneous whole milk products.

3/ Plain, solids added, flavored, and miscellaneous lowfat and skim milk products, and buttermilk.

4/ Represents changes over the previous year. Percentages are based on the same group of markets comparable in both years. Data for 1992 are adjusted to a 365-day basis before computing percent changes.

5/ Adjusted to eliminate variation in data to calendar composition and seasonality.

6/ Represents the data for all Federal milk order markets through June. Beginning in July, excludes Southeast. See "Summary of Federal Milk Order Actions, July 1995" in FMOS-409. Beginning in July, also excludes Paducah.

# MARKETING AREAS UNDER FEDERAL MILK ORDERS AS OF JULY 1, 1995

<sup>1/</sup> Prices are for 100 pounds of milk of 3.5 percent butterfat content. Prices are listed generally for the major city in the marketing area; see footnotes on pages 42 and 43 for these locations.

<sup>2/</sup> The fluid differential is the amount added to the Basic Formula Price to determine the Class I price. The Basic Formula Price is the base month Minnesota-Wisconsin price for the second preceding month updated with a product price formula. See Table 27. The fluid differentials shown for New England, New York-New Jersey, and Michigan Upper Peninsula reflect location adjustments. The differentials specified in the orders are: New England - \$2.52, New York-New Jersey - \$2.42; and Michigan Upper Peninsula - \$1.15.

<sup>3/</sup> Effective July 1, 1995, the Georgia, Alabama-West Florida, New Orleans-Mississippi, Central Arkansas, Greater Louisiana markets were merged to form the Southeast order (order #7). See "Summary of Federal Milk Order Actions, July 1995" in FMOS-409. The data for 1995 are for the Georgia market.

See footnotes on page 45.

FOOTNOTES FOR TABLES 2 AND 3.

1/ Prices are for milk of 3.5 percent butterfat content and for the major city in the marketing area. All averages are weighted.

2/ For those markets which have base-excess plans (see table 21), the prices represent a weighted average of the base and excess prices. For those markets which have multiple component pricing (see table 22), the prices represent the Basic Formula Price plus the weighted average differential price or producer price differential computed under the order.

3/ For the 27 marketing areas where it currently is in effect, this price is applicable to producer milk used to produce nonfat dry milk.

4/ Zone 1 (Boston). Price at 201-210 mile zone: Class I and blend, 72 cents less. Class I and blend price at Hartford, 10 cents less.

5/ New York metropolitan area. Price at 201-210 mile zone: Class I and blend, 72 cents less; Class II and Class III, 8 cents less.

6/ Philadelphia, Baltimore, and Washington, D.C. Price excludes a 6-cent direct delivery differential applicable to milk delivered to the Philadelphia area.

7/ Charlotte.

8/ Bristol, Chattanooga, and Knoxville.

9/ Effective November 1, 1995, the order regulating this marketing area was terminated. See "Summary of Federal Milk Order Actions, November 1995" on page 57. However, data for Paducah are included in the regional, comparable-market, and all-market averages in 1994.

10/ New marketing area. Effective July 1, 1995, the Georgia, Alabama-West Florida, New Orleans-Mississippi, Central Arkansas, and Greater Louisiana marketing areas were merged to form the Southeast marketing area. See "Summary of Federal Milk Order Actions, July 1995" in FMOS-409. The expansion in the marketing area did not result in a significant increase in the number of regulated handlers. Therefore, the new marketing area will be comparable. The figures for 1994 are weighted averages of the data for the five merged markets.

11/ Zone 7 (Atlanta and Birmingham).

12/ Jacksonville and Tallahassee.

13/ Miami.

14/ Zone II (Marquette).

15/ Individual handler pool. Blend prices are weighted average of all handlers.

16/ Zone 1 (Detroit). Price excludes a 10-cent direct delivery differential applicable to milk delivered to the Detroit metropolitan area.

17/ Cleveland and Pittsburgh.

18/ Zone 3 (Columbus). Class I and blend price at Cincinnati (Zone 4) 7 cents more.

19/ Indianapolis.

20/ Zone 1 (Chicago). Class I and blend price at Milwaukee (Zone 4) 9 cents less.

21/ Peoria.

22/ Base Zone (Alton). Class I and blend price at Carbondale (Southern Zone) and at St. Louis 9 cents more.

23/ Zone 1 (Minneapolis).

24/ Zone 1 (Des Moines). Class I and blend price at Rock Island, Ill., 7 cents less; and at Waterloo, 17 cents less.

25/ Zone 1 (Omaha).

26/ Kansas City and Topeka.

27/ Figures exclude, where applicable, Eastern South Dakota, Black Hills, and Western Colorado; the data used to weight the monthly prices were restricted. The applicable figures are:

Marketing area	Class I		Blend		Class II	Class III	Prod. Diff.
	1995	1994	1995	1994	1995	1995	1995
	-----Dollars-----						Cents
E. S. Dakota	13.58	13.54	13.26	12.90	12.38	12.87	10.5
Black Hills	14.13	14.09	13.95	13.96	12.38	12.87	10.5
W. Colorado	14.08	14.04	13.87	13.82	12.38	12.87	10.5

28/ Zone 1 (Oklahoma City). Class I and blend price at Springfield, Mo., 58 cents less.

29/ Zone 1 (Dallas). Class I and blend price at Houston, 54 cents more.

30/ Denver.

31/ Boise, Idaho.

32/ Salt Lake City, Utah.

33/ Phoenix.

34/ Albuquerque, Santa Fe, and El Paso.

35/ Zone 1 (Seattle and Portland).

36/ Figures are based on the same group of comparable markets--markets where the orders were in effect the entire period 1994-95, and for which the data were not affected significantly by marketing area changes; all markets, except Paducah, are comparable. However, data for Paducah are included in the comparable-market and all-market figures.

37/ Figures exclude, where applicable, Eastern South Dakota, Black Hills, and Western Colorado; the data used to weight the monthly prices were restricted. The applicable figures are:

Marketing area	Class I		Blend		Class II	Class III	Prod. Diff.
	1995	1994	1995	1994	1995	1995	1995
	-----Dollars-----						Cents
E. S. Dakota	14.11	13.79	13.63	12.75	12.91	12.91	6.1
Black Hills	14.66	14.34	14.33	13.99	12.91	12.91	6.1
W. Colorado	14.61	14.29	14.42	14.15	12.91	12.91	6.1

FOOTNOTES FOR TABLES 4 THROUGH 11.

1/ Prices are for milk of 3.5 percent butterfat content and for the major city in the marketing area. See footnotes on pages 42 and 43 for location at which price is reported. All averages are weighted.

2/ Effective November 1, 1995, the order regulating the marketing area was terminated. See "Summary of Federal Milk Order Actions, November 1995" on page 57. The handler formerly regulated under this order now is regulated under the Southeast order. Therefore, the data for Paducah are included in the regional, comparable-market, and all-market figures, where applicable .

3/ New marketing area. Effective July 1, 1995, the Georgia, Alabama-West Florida, New Orleans-Mississippi, Central Arkansas, and Greater Louisiana marketing areas were merged to form the Southeast marketing area. See "Summary of Federal Milk Order Actions, July 1995" in FMOS-409. The new marketing area will be comparable. The figures for 1994 are the summation or weighted averages of the data for the five merged markets.

4/ Figures exclude, where applicable, Eastern South Dakota, Black Hills, and Western Colorado; the data used to weight the monthly prices are restricted.

5/ Figures are based on the same group of comparable markets--markets where the orders were in effect the entire period 1994-95, and for which the data were not affected significantly by marketing area changes; all markets, except Paducah, are comparable. However, data for Paducah are included in the comparable-market and all-market figures. See 2/.

6/ In these marketing areas, milk was not pooled due to unusual price relationships. See "\*" on page 4.

7/ The data for these marketing areas are combined in order to mask restricted data. See table 1 for complete marketing area name.

FOOTNOTES FOR TABLES 12 THROUGH 19.

1/ In-area sales include total sales in each of the areas by handlers regulated under the respective order, by handlers regulated under other orders, by partially regulated handlers, and by producer-handlers. Sales routes of handlers may extend outside defined marketing areas; therefore, some handlers' in-area sales are partially estimated.

2/ Plain, flavored, and miscellaneous whole milk products.

3/ Plain, fortified, flavored, and miscellaneous lowfat and skim milk products, and buttermilk.

4/ New marketing area. See "Summary of Federal Milk Order Actions, July 1995" in FMOS-409.

5/ Comparable markets are markets where the orders were in effect the entire period 1994-95, and for which the data were not affected significantly by marketing area changes.

Excludes Southeast; see 4/.

6/ Excludes New York-New Jersey.

7/ Figures adjusted to eliminate variation in data due to calendar composition.

8/ The data for this market are estimated.

9/ Effective November 1, 1995, the order regulating this marketing area was terminated. See "Summary of Federal Milk Order Actions, November 1995" on page 57.

10/ Comparable markets are markets where the orders were in effect the entire period 1994-95, and for which the data were not affected significantly by marketing area changes.

Excludes Paducah and Southeast; see 4/ and 9/.

11/ See table 13 for marketing areas included; excludes Paducah and Southeast.

12/ Total packaged disposition, in and out of the marketing area, by regulated handlers. Besides receipts from producers, these dispositions also may include receipts from other Federal order plants and/or receipts from other sources. However, sour cream, yogurt, and eggnog are reported on a used-to-produce basis.

13/ See table 12 for marketing areas included; excludes New York-New Jersey. Percent changes are based on the same groups of comparable markets; all markets are comparable.

14/ Light, heavy, and sour cream, and cream dips.

15/ In addition to listed fluid milk and cream products, includes yogurt and eggnog.

16/ Includes producer milk and other source milk used to produce manufactured dairy products in regulated pool plants, as well as milk diverted and shipped to non-order plants for processing. Other source milk at regulated plants includes bulk transfers and diversions from other Federal orders, and receipts from unregulated sources. Some of the data are preliminary and partially estimated.

17/ In addition to listed manufactured products, includes milk, skim milk, and cream used in other manufactured dairy products, e.g., evaporated milk, condensed milk, dried products, aerated cream, and skim milk equivalent used to fortify fluid milk products; milk, skim milk, and cream used in other food products as well as used in animal feed, dumped or spilled, plant loss, and miscellaneous products.

18/ Percent changes over the previous year are based on the same group of comparable markets--markets where the orders were in effect the entire period 1994-95, and for which the data were not affected significantly by marketing area changes; all markets are comparable. These changes are based on pounds of butterfat, except for nonfat dry milk which are based on pounds of skim milk.

19/ The marketing areas in which milk was not pooled in October 1994 and 1995 due to unusual price relationships were in these regions. See "\*" on page 6.

20/ Restricted.

21/ The marketing areas in which milk was not pooled in November 1994 and 1995 due to unusual price relationships were in these regions. See "\*" on page 6.

TABLE 20--PERCENTAGE OF WHOLE MILK EQUIVALENT (MILKFAT BASIS) USED IN THE PRODUCTION OF MANUFACTURED DAIRY PRODUCTS,  
IN FEDERAL ORDER MARKETS, JANUARY 1995 TO DATE, WITH COMPARISONS 1/

Manufactured dairy product	January		February		March		April		May		June

-----Dol. per lb.-----

-----Percent-----

1/ The orders regulating these marketing areas require that producers be paid on the basis of the weighted average differential, the price per pound for butterfat, and either the price per pound for protein or nonfat milk solids. 2/ Weighted average differential price is for "base milk." 3/ Component pricing provisions became effective for this order on October 1, 1995. See "Summary of Federal Milk Order Actions, October 1995" in FMOS-410. Instead of a weighted average differential price, this order calculates a producer price differential. In addition, a fluid carrier price is determined. For November and December, these prices are \$2.91 and \$4.54 per hundredweight, respectively.

TABLE 23--FACTORS USED IN THE COMPUTATION OF CLASS II PRICES IN FEDERAL MILK ORDER MARKETS, JANUARY-JUNE 1995 1/

1/ This pricing provision was in effect in 38 marketing areas through March 1995. Three separate differentials and Class II prices were computed and are listed according to the group of marketing areas to which each applied. Beginning with the April Class II price, a new formula for determining Class II prices was made effective. See "Summary of Federal Milk Order Actions, March 1995" in FMOS-407. These groups of marketing areas are: Group A: Alabama-West Florida, Black Hills (see 5/), Carolina, Central Arizona, Central Arkansas, Central Illinois, Chicago Regional, Eastern Colorado, Eastern Ohio-Western Pennsylvania, Eastern South Dakota, Georgia, Great Basin, Greater Kansas City, Greater Louisiana, Indiana, Iowa, Louisville-Lexington-Evansville, Michigan Upper Peninsula, Middle Atlantic, Nebraska-Western Iowa, New England, New Mexico-West Texas, New Orleans-Mississippi, New York-New Jersey, Ohio Valley, Paducah, Southern Illinois-Eastern Missouri, Southern Michigan, Southwest Plains, Southwestern Idaho-Eastern Oregon, Tennessee Valley, Texas, Upper Midwest, and Western Colorado; Group B: Southeastern Florida, Tampa Bay, and Upper Florida; Group C: Pacific Northwest. 2/ Price at 3.5 percent butterfat content for the second preceding month. 3/ Total weighted change in gross values of milk used to produce Cheddar cheese and butter/nonfat dry milk. 4/ Class III price for the second previous month minus the computed Class II price for the second previous month. If the computed Class II price was equal to or higher than the Class III price, there was no adjustment. 5/ This marketing area may not have the same Class III price in a given month as other Group A markets. Consequently, the adjustment and Class II price was not always the same. 6/ Effective with April 1995 prices, a new methodology for determining Class II prices was instituted in all Federal milk orders with the exception of Paducah. Under the new provision, the Class II price is the basic formula price for the second preceding month plus a fixed differential of \$0.30. Paducah maintained the old pricing provision for April, May, and June 1995 until adopting the new provision starting with the July 1995 price.

TABLE 24--FACTORS USED IN THE COMPUTATION OF CLASS III-A PRICES IN FEDERAL MILK ORDER MARKETS,  
JANUARY 1995 TO DATE <sup>1/</sup>

<sup>1/</sup> This pricing provision is currently in effect in 22 marketing areas. See "Summary of Major Order Actions, December 1993" in FMOS-399 and table 2 in this report for the affected marketing areas. This price is applicable to producer milk used to produce nonfat dry milk.

<sup>2/</sup> "Dairy Market News," AMS.

<sup>3/</sup> This price series is used in the computation of the modified yield factor and Class III-A Prices in all but 3 of the 22 affected marketing areas. See <sup>1/</sup>.

<sup>4/</sup> This price series is used in the computation of the modified yield factor and Class III-A Prices in the western marketing areas. See <sup>1/</sup>.

<sup>5/</sup> 9 less (0.4 divided by the applicable nonfat dry milk price).

<sup>6/</sup> (Butterfat differential times 35) plus [(applicable nonfat dry milk price less 12.5 cents) times the applicable modified yield factor].

<sup>7/</sup> See <sup>1/</sup> to find the marketing areas that use this nonfat dry milk price series.

<sup>8/</sup> New England, New York-New Jersey, and Middle Atlantic also use a seasonal adjustment in the computation of Class III-A prices.

1/ Based on prices at test as reported in "Agricultural Prices," NASS; converted to a 3.5 percent test by using the butterfat differential specified in Federal milk orders for conversion of the blend prices that vary from 3.5 percent. 2/ The Minnesota-Wisconsin (M-W) price series is the average price reported paid to producers for manufacturing grade milk f.o.b. plants in Minnesota-Wisconsin as reported by NASS. Effective with the May 1995 price, the Basic Formula Price replaced the M-W price series, which establishes minimum prices under all Federal milk orders. See "Summary of Federal Milk Order Actions, May 1995" in FMOS-408. Prices shown for January through April are the M-W price series. Prices shown for May through December are the Basic Formula Price. The average price combines these two price series for the applicable periods. 3/ This price series, which has been discontinued, had been used to determine the Class III price in some markets. 4/ "Agricultural Prices," NASS. 5/ Animals sold for dairy herd replacement only. 6/ Figures are published for January, April, July, and October only. 7/ Mid-month price. 8/ Includes beef cows and cull dairy cows sold for slaughter, but not dairy cows for herd replacement. 9/ Pounds of 16 percent mixed dairy feed equal in value to 1 pound of milk sold to plants. The methodology utilizes major raw feed component prices from the NASS agricultural commodity prices published monthly.

1/ "Milk Production," NASS. Monthly milk production is collected only for 22 selected States. NASS collects total U.S. production on a quarterly basis only. NASS estimates total U.S. monthly production based on the pattern in production in the 22 survey States. 2/ "Dairy Products," NASS. Frozen products include ice cream, lowfat ice cream, sherbet, frozen yogurt, and other frozen products. 3/ The sum of the monthly figures may not add up to the total due to rounding.

1/ End of Month. 2/ "Cold Storage Reports," NASS. 3/ The sum of the Government-owned and commercial figures may not add due to rounding. 4/ Data represent natural cheese only and do not include Government holdings of processed cheese. 5/ Includes Government stocks. 6/ "Summary of Processed Commodities in Store," CFSA. 7/ "Dairy Products," NASS.

Special Articles Published in the 1995 Monthly Summaries of  
"Federal Milk Order Market Statistics"

FMOS - 406, January and February

How Federal Milk Order Market Statistics Are Developed and What They Mean.

This article describes Federal milk order terms and statistics, and discusses why Federal milk order statistics are collected and published.

Federal Milk Order Market Administrators Budgets, 1994 and 1995. For each market administrator, budgets representing estimated expenditures, by type of expense and estimated income, and by type of fund, are shown.

### Summary of Federal Milk Order Actions, September 1995, Revised

The September 1995 Summary of Federal Milk Order Actions should have included the following action.

#### Suspension:

Middle Atlantic - September 1 (60 FR 43953, 8/24/95). This action suspends certain pooling provisions of this order for the months of September 1995 through February 1996, or until such prior time that the rulemaking proceeding to correct the market's pooling problems is concluded. The suspension reduces the percentage of receipts that must be disposed of as Class I disposition by pool distributing plants, provides automatic pool plant status for supply plants and reserve processing plants that were pool plants during the preceding months of September through February, and removes the limits on the amount of milk that may be diverted to nonpool plants by cooperative associations and pool plant operators.

### Summary of Federal Milk Order Actions, November 1995

#### Termination:

Paducah, Kentucky - November 1 (60 FR 55179, 10/30/95). This action terminates the Paducah, Kentucky order effective November 1, 1995.

### Summary of Federal Milk Order Actions, December 1995

#### Amendment:

Middle Atlantic - December 1 (60 FR 55309, 10/31/95). This action reduces the standards for regulating distributing plants and cooperative reserve processing plants and increases the amount of producer milk that can be diverted to nonpool plants. Additionally, the market administrator will be authorized to adjust pool plant qualification standards and producer milk diversion limits to reflect changes in marketing conditions. Also, this action provides that a pool distributing plant that meets the pooling standards of more than one Federal order will continue to be regulated under this order for two consecutive months before regulation can shift to the other order.
